Notebook: Is **Flutter** Mobile Application that helps to save daily task s, homework's and notes in a clearer and simpler way with the addition of the night mode based on Database "**SQLite**", with some other additions in the application. ([See Project](#))

News (API – BLOC): It's Flutter Mobile app its target application dealing with State Management and get Data from **API** this app build on **Bloc**, And there are many advantages to search for the news **light, dark mode**, category news (sports - sciences - top-headlines based on selected countries etc.)

Chatting Group (Firebase): It is the application that can make chatting with your groups users in a secure way, the application contains the firebase login and registration screens authentication, and the chat screen based on **firebase** database.

E-Commerce App: It's the app you get all the data from the **API**, starting with onboarding, splash screen, login and registration, home page get banners, offers, some products and other features, second there is the products page to get all product categories and search for any one, favorites, shopping carts which have all Products such as their purchase in your account, finally profile data and setting page of app.

Tack Quiz (API): It is a mobile application that helps students take the Quiz in an entertaining way so that they do not get bored of it and learn in many filed such as computers, mathematics, etc... We use (**API**) to book these questions, and students can specify the number of questions they want to answer, and determine the extent the difficulty of the questions, and a detail page showing their final results telling them the details of the answers.

Important Certification and Awards

- Cloud Application Developer 2018 - Mastery Award for Students (**IBM**) **(February 2020)**
Selected as one of 80 participants for the Cloud Application Developer program based on academic.
- Full Stack Web Developer Nanodegree (**Udacity**) **(Nov 2019)**
- Android Developer (**Udacity**)
- Flutter Development Using Dart (**The App Brewery**)

Professional skills

- Fluent Arabic and English Speaker.
- Teamwork.
- Time Management.
- Ability to work in remote teams.

Technical Skills

- Dart, Python, JavaScript, C++, C#, PHP and Java
- MySQL, Mongo DB and PostgreSQL, SQLite.
- Flutter, Android Native
- REST API, JSON, firebase.
- HTML, CSS, Bootstrap.
- GIT, Adobe Illustrator, Adobe XD.
